Genesis at the Crossroad's Instrument-Donation Program

Have a musical instrument in the closet, long out of tune, collecting dust…
Yet…still unable to part with it…
All those music lessons of yester-year making you feel guilty…

Now is the time to make use of your instrument by donating it to a child halfway around the world, who has neither access to an instrument, nor money for lessons. Their schools have no mandatory musical instruction either.

Now you can help the GATC's *ARTSLINK* humanitarian effort:

Arm Them with Instruments

Our pilot program will help take these indigent children off the streets of Casablanca and aid them in tapping into their innate talent and creative self-expression.

Thank you in advance for your generosity and your profound commitment to arts-education. (Please note, GATC will help you with shipping arrangements and credit you with an *in-kind* donation letter for your taxes)

Instrument_____
Approximate present day value $_____

Please say a few words about why you chose to participate in this program, and please include, if applicable, an anecdote about an early childhood/young adult experience with music that touched you personally or some information about the person who owned the instrument, if it was not you. (Feel free to add an additional paragraph.)
